AGAINST THE STATE FOR THE NATION

WHEN a society is sick and in decay, freedom fighters will fight with all their energy for their nation but in doing this they will find themselves against the State who try to enforce more despotic laws and repression to uphold their privilege and power.

In this special feature we show two ways in which we are fighting "AGAINST THE STATE – FOR THE NATION".

FOREIGN TROOPS OUT YANKS GO HOME

THE LUNATIC reality of the foreign military occupation of the British nations and Europe was brought home to millions after the bombing of Libya by Washington during April. Ever since Labour signed the secret agreement with Wahington in 1947, allowing US bases into this country, Britain has become a giant aircraft carrier for the USA. The same situation exists throughout the nations of western Europe.

Today in the British Isles, there are 103 American military installations. Our land is crammed with occupational bases, conventional & nuclear missiles, nuclear submarines, aircraft and about 30,000 Yank servicemen, many of whom are black which causes extra problems. American servicemen are also exempt from British laws and our Courts have no jurisdiction over them or their bases.

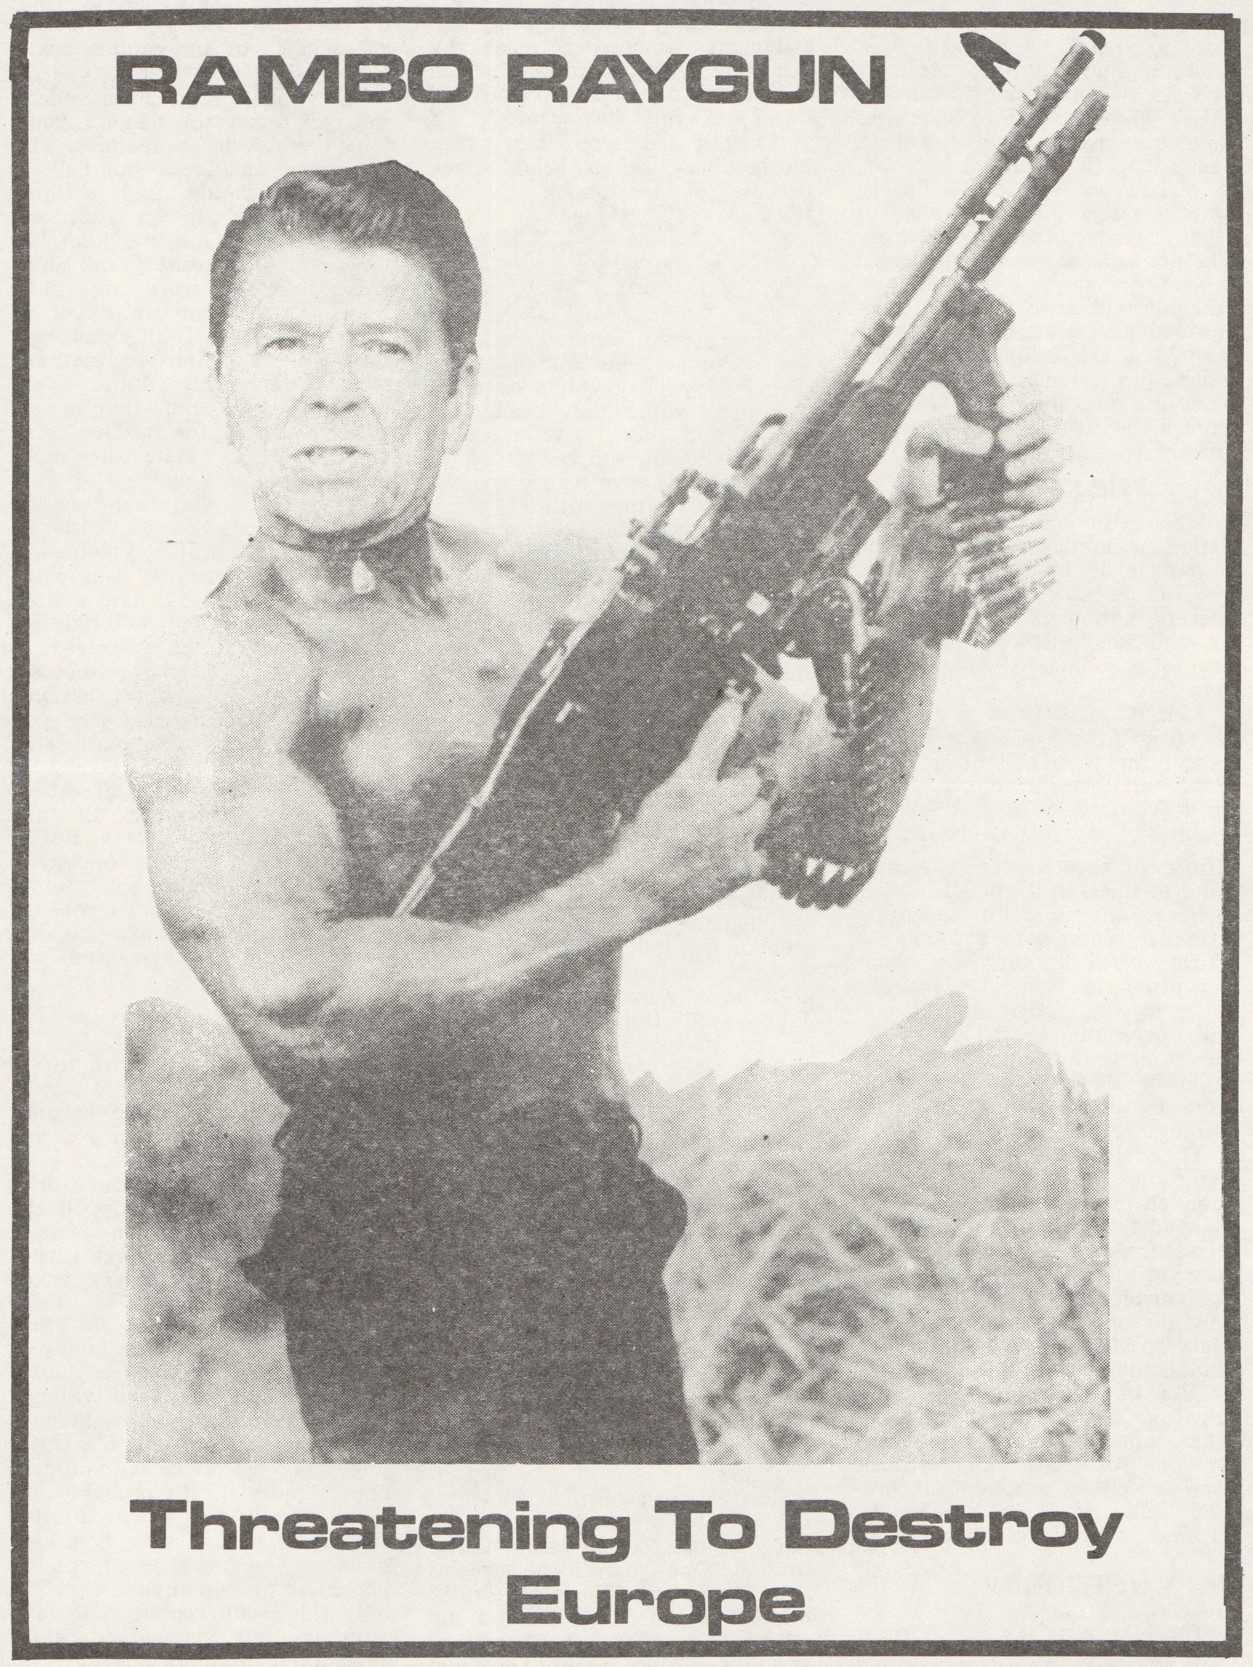
In fact it was recently disclosed that the USAF with Ministry of Defence support, declared a 200 mile air exclusion zone above their base at Upper Heyford in Oxfordshire. Upper Heyford is the home of 3 squadrons of F-111 fighters. These supersonic planes carry nuclear missiles. If British pilots wish to fly within 200 miles of the base, they have to get permission from the Yank authorities. If they don't they could be grounded or possibly even shot down.

For as long as the military occupation of our land continues we will be in the front line of a possible nuclear war that will have nothing to do with us. If the two powers of State Centralism, the USA and USSR, decide to fight it out, we will be the people who are horrifically annihilated or left rotting from radiation.

American military leaders have openly stated that if there is a future nuclear war, it would be a limited war fought entirely in Europe.

The British peoples must rise and chase the Yanks out of our nations. If we don't we will have no future. But it is no good throwing out the Yanks and leaving ouselves defenceless. Unfortunately we live in a nuclear age, and if we wish to deter any future aggressor we need an adequate defence for this to be possible. Therefore we believe that we must maintain a small nuclear capacity, but big enough to deter any two potential aggressors. This must be entirely British built and entirely under our control.

Therefore if we wish to control our own national destiny we must also withdraw from NATO, and declare Armed Neutrality. NATO binds us to the US against the USSR, but the USA is no more our friend than the USSR is. We have no quarrel with the American and Russian peoples, but we completely reject the ideologies of their States.



END THE OCCUPATION!

EUROPE AWAKE

THE whole of Europe is split and divided between foreign military forces of occupation. In western Europe we are pinned beneath the sharp claws of the USA, and in the eastern half of Europe our peoples are chained to the USSR. Germany has also been physically divided by the 'Super Powers'.

But the nations and the peoples of Europe do not see these Powers as super! Not only are we subservient to their wishes and demands, and our nations crammed full of their deadly weapons, but we have allowed them to virtually destroy our traditions, cultures and heritage. We have allowed them to implement their bland, soulless and degenerate ideas, values and 'culture' over us. But this shall not be for much longer. The peoples of Europe are slowly but surely awakening from their slumber and will demand their freedom, birthright and nationhood.

We have an ideal worth living and fighting for. The nations of Europe – Proud and Free. A Europe united Spiritually with one purpose. The purpose of controlling our own affairs and Destiny, the purpose of preserving, defending and regenerating our Peoples, Cultures, Traditions and Heritage that sprang from the same root. **If we demand Life then we must rise now.**

A NON–NUCLEAR FUTURE

Only when Europe is free from foreign domination and spiritually united will it be possible to rid ourselves of nuclear weapons. When a Europe of the Peoples has been born the nuclear age will leave Europe forever. Together we would be more than a match for any conventional warfare directed against us. Sheer numbers dictate this fact. The forces of Internationalism would not dare to attack us with nuclear weapons as it could only be very limited, because they would end up destroying the rest of the world and themselves with us. A limited nuclear strike against Europe would still leave us with enough people to destroy them if necessary with conventional warfare.

So this is the future that awaits us if we are prepared to fight for it now. A Europe of non–nuclear, non–aggressive strength. A Europe without fear of intimidation from outside. A free National Revolutionary Europe.

EUROPE AWAKE!

JULY 5th BRITISH INDEPENDENCE DAY

JULY 4th is American Independence Day, a celebration of the day when Americans drove the English Red-Coats from their shores.

The NF have designated July 5th British Independence Day. Each year on the nearest Saturday to the 5th we will hold demonstrations against the Yank occupation in areas where their prescence is strongly felt.

This year a march is being held in Bury St. Edmunds as part of a much larger Day Of Action throughout Suffolk.

For more details phone 01-684-0271.

FORWARD TO THE NEW ULSTER

AS IT BECOMES clear that negotiated Independence is the only short-term way to secure a British future for Ulster, it also becomes important that we start to give thought to the kind of society we wish to build.

One thing is immediately clear. Since the establishment of a prosperous Independent Ulster will require a sustained and heroic effort from every individual, it would neither be fair nor realistic to expect such an effort to be put in to build a Capitalist state where the power and rewards of our industry remain in the hands of a wealthy few. But ~~niether~~ do we want any trace of Marxism to poison our ~~ling~~ tradition of private property and individual freedom.

The New Ulster will only be possible, let alone worth living in, if it is built from the beginning as a community benefit nation. Individual enterprise and initiative must be encouraged, but not at the expense of the less fortunate members of our society.

We must seek to heal old class and religious divisions by ending exploitation and building a new future together, based on well-distributed property and social justice for all.

This 12 Point Programme for Ulster is intended as a contribution towards the debate on the future of our land, a debate that will become steadily important as the calls for Independence grow stronger and stronger.

*ULSTER to be a sovereign nation governed by a democratically elected parliament at Stormont. All law-abiding citizens to have equal rights, regardless of religion or economic position.

*THE ESTABLISHMENT of an Ulster Investment Bank, under the control of the elected government, to fund projects essential to the future of Ulster's economy. Special attention to be given to the development of high-tech. engineering industry.

*NEW CREDIT needed by the economy to be issued debt free through the Ulster Investment Bank. Credit creation must be in the hands of the sovereign government, not a source of wealth and power for private bankers as it is now.

*PROGRESSIVE TARIFFS to establish and preserve a secure home market for essential industries.

*PROTECTIVE MEASURES and grant aid to strengthen the position of Ulster's farmers and fishermen. A ban on the foreign ownership of land.

*ESTABLISHMENT of an Ulster National Labour Corps to undertake vital construction projects. It's our country, it's up to us to rebuild it.

*THE HANDING OVER of empty and derelict properties to newly married couples prepared to renovate them. The active encouragement of private property in all areas of national life.

*ULSTER'S security forces to be under the direct control of the Stormont parliament, A Declaration of War against the forces of armed Republicanism.

*THE RESTORATION of the death penalty for all terrorist and sectarian murders.

*MILITARY TRAINING and the right to bear arms to be given to all citizens giving their allegiance to the sovereign government of Ulster.

*DECLARATION of Armed Neutrality. No foreign bases on Ulster's soil. The retention of British bases to be negotiated in return for economic aid.

INDEPENDENCE

A FEW QUESTIONS ANSWERED

WHAT DOES INDEPENDENCE MEAN? –Independence for Ulster means Political Independence. Ulster will be run by and for the people of Ulster, from Ulster. Ulster will no longer be subject to the exploitation, the whims and forced deprivation from Westminster. Nor will she be subject to the whims or influence of Dublin.

BUT ISN'T ULSTER A PART OF IRELAND? – No, Ulster is a historic and ancient nation in her own right. She is no more a part of the nation of Ireland than Scotland or Wales are a part of England. It is also untrue that the people of Ulster were English who had been 'planted' by the British Crown to enforce British rule over Ulster. The majority of 'planters' were descended from the initial inhabitants of Ulster who had settled Dalriada, Galloway and many other areas of the mainland centuries before.

IS INDEPENDENCE A NEW IDEA AND IS IT VIABLE? – It is not a new idea and it is viable. In 1974 the **Ulster Defence Association (UDA)** did extensive studies into the viability of Independence and found that it was viable. Unfortunately Ulster was sold out then, as it always is, by the Fur Coat Brigade – the established 'Politicians' of Ulster. **If Ulster is to have any chance at all, the fur coat brigade must go.**

In 1974, the UDA's feasibility study was largely based upon economic backing from various sources. The social and economic structure of the National Revolution had not then been developed. Firstly the banking system must be nationalised so that an Ulster Government could control the monetary supply and cancel all usurious national and internal debts caused by our criminal banking system. Money could then be spent into circulation instead of being lent at enormous interest rates. The money in circulation would roughly equal the goods and services in supply and demand, thus eliminating inflation and deflation. This would also enable interest free loans to be made over an agreed period.

Secondly, Society would be based upon small family farms and business, workers Co-Operatives and self-sufficiency.

BUT DOESN'T INDEPENDENCE MEAN THE BREAK UP OF BRITAIN? – We do not believe in a Centralist State as both Capitalism and Communism do. We believe in the de-centralist concept of the British family of nations. In a National Revolutionary Society there would be a British Government made up of representatives of the nations of our family, but this would deal exclusively with foreign affairs, in the interest of the nations of the British Isles. Our society would be based upon the family and as much self-sufficiency and decentralisation of power as possible.

In this sense Independence is a vital step forward to the National Revolution. Our family of nations would of course be inextricably linked by similar culture, traditions, heritage and race. The Spiritual link can never be broken.

LOYALIST UNITY LOYALIST ACTION

AT EVERY CRISIS in Ulster's history, the day has always been saved by the united action of ordinary people. Ulster can win this final battle – but only if every member of our community gets involved. We can't afford to leave it to the politicians. We must take action ourselves to defend our heritage and build a decent future for our children.

Ulster's victory will be assured if we work together to build Loyalist power in three areas where it really counts:

*PHYSICAL POWER. It is more important than ever to ensure that our communities are protected from Republican terrorists, from criminals and bigots using legitimate community unrest as a cover for looting and the settling of old scores, and from repression by the forces of 'law and order' (Westminster's law and Thatcher's orders).

So every Loyalist has a duty to join whatever organised force they think is best able to protect their community. Thatcher may pass laws against this, remember: Self-Defence is No Offence!

*ECONOMIC POWER. Every Loyalist worker must get involved in Trade Union affairs and work to return control of the unions to the rank and file membership.

The Ulster Clubs will also play a vital role in the struggle ahead, by forming the basis of an alternative Loyalist welfare state and civil service. If you haven't already joined, do so today.

*POLITICAL POWER. We dare not trust the old political leadership to achieve a satisfactory political solution. We need a hard-line political organisation to articulate the feelings of ordinary Loyalists. The old politicians do not have the guts needed to win this battle.

Only the National Front has the ideological and strategic coherence Ulster needs to put backbone into her political struggle. The NF is working hard to put over Ulster's case on the mainland, but there are still areas in Ulster in which we do not have the manpower to get our message across to everybody. Quite simply, the National Front needs people like you. So don't just buy our papers, get involved. We need more paper sellers, local organisers, volunteers for political training seminars, etc.

The National Front needs YOU to help build the powerful political machine Ulster needs to become Independent – and thus survive as a free Nation, proud of her British heritage and secure in her British future.

*AS PART of the National Front's campaign to promote Loyalist Unity and Loyalist Action, we invite all Loyalist organisations to give *NF News* details of their struggle for Ulster's freedom. We'll then report them in our *Loyalist Unity – Loyalist Action* column. Send all reports to : PO Box 40, Belfast, BT 7 1LY.
